Alicia Keys

lakkars Magazine
22nd Edition

Even before Alicia Keys belted out the first soulful notes of the lyrics that made her famous—"I keep on fallin' in and out of love with you"—I could feel the power of her presence. As she sat across from me on the stage of my show last spring, I decided that I wanted to have a real conversation with her, away from the cameras and commercial breaks. I finally do, on a Saturday morning in Harlem, at the Schomburg Center for Research in Black Culture, where writer Langston Hughes is buried.

At 7 Alicia was learning classical piano, and by age 12, she was writing her own songs.

SMART WAY TO TRUST

Standing around six feet Lauren Bell is an unmissable presence on the field and her attacking spirit is matched by her presence that rivals players in the men's game. It's interesting to note that Lauren Bell is not all cricket.

Lauren Bell made her international cricketing debut in June 2022 in a test match against South Africa where she picked up two wickets in a drawn game. She had already been performing for the club side Southern Vipers and an international debut was all but inevitable. A string of good performances saw her bowling average steadily improve and now she is a permanent stay in all formats of the game.

Britain's beloved rap superstar Little Simz has captured our imaginations with her timeless storytelling, which since 2010 has extended to albums of sophisticated hip-hop (four), EPs (six), mixtapes (four), and TV roles (two). It's won her a Mercury nomination and an Ivor Novello award, and this year she's on fashion billboards from Piccadilly to Shibuya.

Little Simz is everywhere – remarkably for one whose new album is titled *Sometimes I Might Be Introvert*. Like her musical heroes Lauryn, Nina, and Biggie, she is an intriguing combination of reserve and incandescent talent. This autumn, from her north London manor, the 27-year-old prepares to launch herself into greatness.

When Simbiatu Ajikayo was 10 years old she stood up on stage and laid out her plan. Dressed in Nike Air Force 1s and a red Ecko tracksuit, she walked out at a talent show in north London and performed a song called “Achieve Achieve Achieve”.

Moukthika Pinnamreddy

lakkars Magazine
22nd Edition

Exit

While some may shy away from incorporating tech into their everyday lives, Moukthika Pinnamreddy charges ahead down this path -- and disrupts the fashion industry with her "creative technologist" fashion designs. She does more than just design great, hyper-functional clothes, though. This allows her soft, touchable fabric to self-heat, light up and more.

Moukthika's dream is to create a world where clothing and fabrics are more than just decoration and do more than provide just one function. If she gets her way, you'll be able to literally light up the room whenever you desire, or keep a newborn warm or wake up during the correct part of your REM cycle.

Irina explained that she aims to work with different creative personalities. Right from photographers, designers, Tv shows, Irina is all set to expand her horizon in the coming time. Looking at her progressive track record, it seems that the makeup artist will chase her goals and carve herself as one of the best names in the industry.

PENKRAT IRINA

lakkars Magazine

Interestingly, Penkrat Irina's core expertise in creating trends rather than recreating looks have made her a preferred name among many celebrities and designers. With her impeccable work, the makeup artist has established a strong fanbase on platform. Besides creating distinctive looks, Penkrat Irina often interacts with her audience and shares her knowledge about beauty, skincare and hair care through her training.
